***Allowable Subject Matter***

Based on the Examiner's indication of patentable subject matter in each of claims 15 and 29-31, Applicant has either cancelled or made dependent each of the remaining claims from one of these. An updated/modified survey of the prior art did not yield a reference more germane than those already of record. Accordingly, claims 3-6, 9-15, 18-20, and 23-32 are deemed allowable.

As an aside, the Examiner believes it is necessary to interpret the meaning of claim 32 because it has more than one possible meaning. In the Examiner's estimation, claim 32 indicates that the roll of claim 30 contains not only a graft polymer with one of polyester, silicone, or acrylic side chains but also a second graft polymer compound bearing polyether sidechains. Indeed, there is no support in the original disclosure for a single graft polymer on which are appended a plurality of distinct chains.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
